Q: How did you and your husband meet?

Will and I met the night of his best friend's wedding. The wedding party went out after the reception in Memphis. I was out wishing my best friend farewell as she moved to Chicago with her new husband. He approached me, and we couldn't stop talking the entire night. He lived in Atlanta, and I lived in Memphis at the time. But we kept in touch talking for hours each night. I eventually moved to Atlanta, we continued to date and the rest is history!

Q: How did you choose the rings?

On a beautiful weekend in L.A. Will told me to get dressed up b/c we were going on a lunch date (which we had never done before)...I was a bit intrigued, but I didn't ask any questions. We pulled up on Rodeo Drive in Beverly Hills and had lunch at one of my favorite spots. Just as I thought we would head home, Will asked me to go look at rings with him. We strolled along Rodeo going in Harry Winston, DeBeers, Tiffany's and all the stores a girl would dream of going in to try on engagement rings! I was in a fairy tale and it was one of the best days of my life. I will never forget it.

Q: Did you have a groom's cake?

Yes, a "suitcase" with old-time stickers/stamps of where we've been throughout our relationship. We love to travel so this fit us well.

Q: What are you most looking forward to about being Mr. & Mrs.?

Starting a family of our own. I work with kids and I can't wait to have our own!

Q: Why did you choose your photographer?

He was confident, cool, and talented. Most of all, he made me feel comfortable and didn't pressure me at all. I loved that about him. I didn't want someone taking intimate pictures of us if I didn't feel comfortable. I also didn't want to be convinced to use someone I didn't like. I felt no pressure from Jake. He really listened to what I wanted and didn't just shoot what he wanted. I expressed to him that I wanted to focus on nature, and he did just that.
